Lucky Game Options: Numbers

- The game cards are labeled with little numbers in the cloud.
- If you have a small number of players, simply mix the numbers (only include numbers for the cards actually in play) in with the general game pieces. When ever you draw a number, the person with the corresponding board gets to pick any symbol they want to be covered for everyone (for example, draw number 7, the person with board number 7 can pick for everyone to cover up the cupcake symbol).
- If you have a large number of players, place all the numbers in a different bowl. Every once in a while, do a “lucky” draw out of the bowl the numbers. Whatever the number drawn, the person with the corresponding board gets to pick any symbol they want to be covered for everyone (for example, draw number 7, the person with board number 7 can pick for everyone to cover up the cupcake symbol).

1	2	3	4	5	6	7	8
