- ☐ Something that keeps your hands warm
- ☐ Something that reminds you of snow
- ☐ Something blue

Photo Scavenger Hunt

Obviously, a photo scavenger hunt is a fun activity without any competition. But if you want to add a competitive element, there are a few ways to play.

Competition options:

- Photo Race: Set a time limit. Each completed photo earns one point. Highest score wins.
- Difficulty Challenge: Assign points based on difficulty. Easy photographs earn 1 point, more challenging ones earn 3 or 5. Whoever earns the most points wins.
- Creative Photography Contest: Everyone completes the same challenges, then votes for the most creative, funniest, or most beautiful photographs.
- Team competition: If you have a larger group, divide into teams and use any of the competition methods above. Just make sure you set ground rules and scoring in advance to prevent disputes.

A quick reminder: Stay in safe, permitted areas, respect private property, and ask permission before photographing people. Always follow local rules and regulations.
